## Trouble in Board of Trade Means Change?

### FLAMING HORROR SWEEPS COUNTRY NEAR RAINY RIVER

Five Hundred Lives Are Lost in the Terrible Cyclone of Fire That Destroyed Beaudette and Spooner and Attacked Rainy River, Ontario—This Estimate is Conservative

### MEN FOUGHT WOMEN DURING THE PANIC

Vivid Pen Pictures of Some of the Frightful Scenes That Took Place When the Fire Fiercely Burst With Uncontrollable Fury Upon Towns Nestling in the Heart of the Woods

#### EDMONTON MAY HELP.

Mayor Lee was asked by the Capital this morning if the city would grant any money towards the relief of the sufferers if the great Rainy River holocaust. The Mayor stated that it was a matter for the council to decide, but intimated that the probability is that the city will vote a grant, having done so in the case of the Campbell fire. The fire in Rainy River was of a far greater extent and was attended by a much greater loss of life, property and personal suffering.

(Special to the Capital.)

Winnipeg, Oct. 16.—"Brother, it's hell down there." So said Fireman George Smith of the Duluth Express on his arrival here this morning.

"If she keeps on the way she is going there is going to be mighty little left of the population of that part of Minnesota. She has quieted down a little, but it just needs a puff of wind and she is back again as bad as ever. There is one good thing though, it cannot very much reach the railway again, for all the timber in that section is burned. For miles around Beaudette and Spooner the country is now level as the prairie. Everything is swept away."

He added that the bridge between Beaudette and Pitt, through which a half dozen grain cars went Friday night, has been repaired temporarily.

Rainy River is one great concentrated camp fitted up as a temporary hospital but danger there has not yet passed.

#### WORD DIRECT FROM BEAUDETTE.

(Special to the Capital.)

Beaudette, Minn., Oct. 16.—Fifty-three are dead here and the bodies of two families, nine and five in number respectively, have been brought in from outside points. The roads are choked with fallen timber and rescue parties are operating under great difficulty.

It is estimated that the dead in this section will number two hundred, but grave alarm is felt because so few of the settlers are coming in. One thousand refugees have been taken south, but these are the town population.

A relief committee is fully organized. Two cars of provisions have arrived. Provisions, clothes and money are badly needed. Roosevelt and Williams are reported in danger but Warroad is still safe.

(Special to the Capital.)

Winnipeg, Man., Oct. 16.—Only one wire is working direct with the fire zone and that is choked up with messages from frantic relatives asking the fate of their friends.

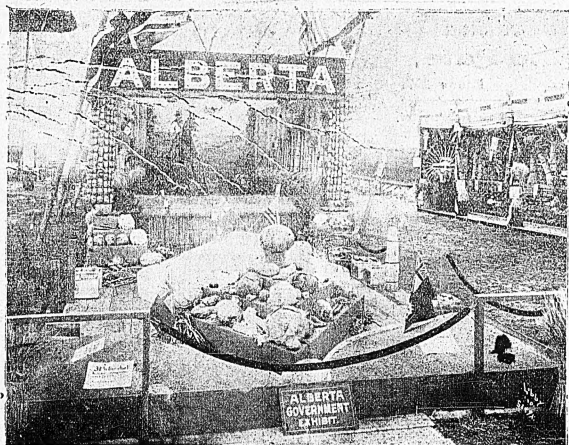

Winnipeg, Man., Oct. 16.—The first Canadian Northern train in several days reached here at 11:05 this morning from Fort Francis, this being the Duluth special. Traffic has been resumed through the fire swept zone but through traffic has not yet been established from Fort Francis east to Fort William. Telegraphic communication has, however, been restored, the wire being strung along stumps of burned trees in the section where poles were burned. A number of refugees were on the train, but although local charity associations had made preparations for receiving the injured none of those were brought in, temporary hospitals having been established at various points near the scene of calamity.

Among the passengers was W. A. Preston, M.P.P., who is wiring the Ontario government from here, asking for help for Rainy River. He says the wind has dropped and the situation for the time being is under control, but that if the wind shifts to another quarter, Rainy River may be destroyed.

Fort Francis sent up all the fire appliances they could spare and big gangs of men have been contributed from all along the line to stem the tide of conflagration at the Canadian boundary.

A regiment of state militia arrived at Beaudette and have taken charge there.

### IF COL. SAM HUGHES COULDN'T TALK, HE'D

At Least, If He Can't Have a Voice in the Affairs of the Empire

SAYS HE WILL NOT STAY

The Fighting Colonel is in Edmonton—Fires a Broadside "Agin the Gov't."

"I am an advocate of an imperial parliament—not a council, for a council is not responsible—where the imperial affairs of the empire may be discussed and where each of the colonies may have a responsible voice on a par with the motherland. I am opposed to a Canadian navy but am an advocate not only of one imperial fleet but of one imperial army. I am not one who will live in Canada and be ruled by politicians in Britain. If I am to live in Canada I want to have a responsible voice in the affairs of the empire and if I don't get it, well then I won't live in Canada. But I am willing to give them plenty of time."

Such, in substance is the Imperialistic idea of Col. Sam Hughes, member of parliament for Lindsay, Ont. as given to a Capital reporter this morning in Col. Hughes' own characteristic style. Col. Hughes arrived in the city this morning and will leave this afternoon for the coast. His trip is only on private business.

When asked about the state of politics at Ottawa Col. Hughes said that things were in a peculiar state.

"There is a protection government in power at Ottawa," he said, "and then Laurier comes out here and preaches free trade. Personally I am opposed to free trade."

"How is the feeling in the east towards reciprocity with the United States?" Col. Hughes was asked.

"I think that I damn Macdonald (editor of the Toronto Globe) has a bee in his bonnet," he said, "Carnegie and he seem to be great friends."

"No, I believe in protection, but not job-siding protection," continued Col. Hughes. "An imperial preference is desirable."

In the course of the interview, Col. Hughes touched on several matters, the euarchist congress being among them. He also resurrected the separate school question.

Speaking on the latter, Col. Hughes said that there was absolutely no necessity of separate schools in the west. "Why are we away behind every France, Spain or Portugal. They have driven papal control out of the country, while we are harboring it."

On the Euarchist congress, Col. Hughes said "I was not invited to it, but at the same time I have my opinion of it. I think that welcome of Vanuetti by Justice Girouard, then administrator of the government, was the rankest bit of impertinence to the Canadian Government on record. And

### MAN, AGE 75, GETS DEATH SENTENCE

Robert Parker, Aged Trapper Living Near Belleville, Ont., Sentenced to Hang.

HE KILLED WM. MASTERS

Shot His Neighbor as Climax to Feud of Many Years' Standing.

Belleville, Oct. 9.—Robert Parker was sentenced to be hanged December 3rd for the murder of Wm. Masters on April 8th near Tweed. The prisoner is over 75 years of age.

The story is that on Friday, April 8, Masters, who lived near Chapman's Corners, Hungerford, township, Hastings county, left his house to proceed to a swamp for the purpose of drawing wood. Some time after his train returned home without a driver. Members of the family surmising something was wrong instituted a search, with the result that Masters' body was found lying on the ground. He had been shot. The ball had entered beneath one arm and emerged near the hip on the opposite side. That it was not a case of suicide was certain as the wound could not have been self-inflicted. An inquest was held, with the result that Parker was suspected of having committed the deed, and the coroner's jury brought in a verdict to that effect. It is alleged that some sort of feud had existed between Parker and the dead man.

During the trial which lasted five days, over forty witnesses were called by the Crown and nearly as many for the defence.

### TAY PAY IS TO VISIT US ON FOURTEENTH

O'Connor Will Be Here Next Friday or Saturday—To Speak to Canadian Club.

T. P. O'Connor, M.P., the great Irish Nationalist and Home Rule agitator, who is touring Canada, in the interests of the home rule campaign, is expected in Edmonton on the 14th or 15th of this month. The Canadian club is making an effort to have Mr. O'Connor address the club on the Irish question. Travelling with Mr. O'Connor are several other Irish home rulers, including John Redmond. It is not known, however, whether the others will accompany Mr. O'Connor to Edmonton.

### SERIES OF THEFTS STRIKES FERNIE

Amateur Cracksmen Try to Rob Safe in Station of Great Northern.

BANK JANITOR HELD UP

But He Smashed Highwaymen One Between the Eyes—Bar Till Looted.

Fernie, B.C., Oct. 9.—A safe in the Great Northern Station was blown open Friday night, apparently by amateurs, who affected an entrance through the windows. Ramsacking a number of trunks, they secured blankets and some rifle cartridges, with which they charged the safe lock, but the results were not encouraging, as though they broke off the combination they did not succeed in opening the steel door which they next encountered. They took nothing except the trifles from the ransacked trunks and about a thousand tickets from the cabinet. About Blackstone cannot get into the safe. Meanwhile although the states there was no money therein, two men were arrested on suspicion.

During the absence of the bartender at lunch, the cash register of the Kona Hotel was broken open and pilfered of between thirty and forty dollars.

Friday night janitor Ayling, of the Bank of Commerce was held up on North Victoria avenue by a man who demanded his keys. Ayling responded by a blow between the stranger's eyes and then fled home. No trace of this man has been found.

### PONDERING DEEPLY.

Although the medical report for the Edmonton schools was finished in June last, it will be a matter of interest to parents of children in the schools to know that the board has as yet neither received the report nor taken any action on it.

After the lapse of from three to four months, the report has not yet passed the committee stage. It still has to go before the board before it becomes public.

### COLORS PRESENTED.

Winnipeg, Oct. 10.—Ideal weather graced the presentation of the colors to the new Highland regiment (79th Cameron) by Mrs. D. C. Cameron yesterday afternoon on the University grounds.

Prescriptions when brought to us will be filled exactly right. The Edmonton Drug Co.

The Home of Smart Clothes, Kelly & Moore's.

## BOARD OF TRADE IS NEAR DISSOLUTION

At Least, the Present Organization Is—Less Than Five Per cent of Members Turned Out for Important Meeting—All Interest Dying Out—Talk of Reorganization on a Broader Basis—To Include All Citizens Interested in Welfare and Advancement of the City.

Is the Board of Trade satisfactorily attaining the object for which it was instituted?

There are many members of the board who think not and express the opinion that the policy of the board is too narrow to produce satisfactory results. One or two members are known to have lost interest on that account and finally resigned. The great majority of the members are not interested in the discussions or matters undertaken by the board as evidenced by the very poor attendance at the meetings. Enthusiasm seems to be very lacking.

In some cases it appears that there is considerable spite, but in the great majority of cases it is merely lack of interest.

The executive officers of the Board of Trade admit that there is great laxity and little enthusiasm, by statements contained in a circular letter to the members. The letter says in part: "I am instructed by the president to say that in his opinion, the interest taken by the members of this Board of Trade in the affairs being dealt with, as evidenced by their attendance at board meetings, is by no means as great as it should be, in view of the importance of matters coming up for discussion. It has been the habit for only a small fraction of the membership of the board to be present at meetings, at which business of the first importance has been disposed of."

"At a special meeting of the board, called not long ago to discuss a project of prime importance to the members, and big with possibilities for the extension of the trade and influence of this city, of which written notice was

sent to every member, less than five per cent. of the membership attended the meeting and after strenuous effort on the part of the committee having the matter in charge, his project had been abandoned for want of support. It is not considered creditable to the members of this board that so little interest should be evinced in affairs in which all have more or less interest, and it is discouraging to the officers of the board, who are devoting a very large share of their time and energy to the affairs of the board."

The Capital interviewed several members of the board this morning and the opinion expressed by most of them is that reorganization is necessary. The board should be placed on a firmer foundation and along broader lines. It should include any citizen who has the interest of the city at heart.

Mr. F. T. Fisher, secretary of the Board of Trade, when asked if there was to be a re-organization, replied that he did not know.

When pressed for a more definite statement he replied: "Possibly."

"We understand that there is a movement on foot having for its object the reorganization of the Board of Trade," was the statement made to President McGeorge.

"I don't know anything about it. There might be," was the reply.

"At any rate many members are becoming dissatisfied with the way things are running and look for a change. The annual meeting, however, does not take place before February, but something will probably eventuate before then."

## IS GRIERSON STREET TO BE SITE OF THAT INDUSTRIAL COLLEGE?

Man Called at Several Houses There and Wanted to Buy Property—Said He Was a Professor from Washington and Would Pay Spot Cash for All the Land He Could Get.

"That the representatives of the Pittsburgh firm who are in Edmonton for the purpose of opening negotiations which will have the ultimate result in the establishment of a huge industrial college in this city are exceedingly busy, is testified to by the fact that one gentleman who, said that he was a professor and came from Washington, D. C., made some early calls on Saturday morning in the neighborhood of Grierson street and was enquiring among the residents as to whether their property was for sale or not. Amongst the houses he called at were Mrs. Cameron's on Cameron street and the two houses adjoining. He said that he wished to acquire the property for the purpose of erecting a college and described it as being one where no fees or board and lodging would be charged, and which would benefit the country greatly."

The man seemed to be eager to obtain possession of the ground and said that he would pay cash for it and commence operations at once. It seems hardly likely that there would be sufficient room for a college on the amount of property that could be acquired there without crossing the roadway, especially as the representative of the promoters told the Capital on Oct. 15, that the college would occupy 500 acres.

### Is Less Than \$1.50 a Head for Y.M.C.A.

It is just seven days until the Y.M.C.A. campaign to raise \$36,000 for the purpose of wiping off the debt on the building and extending the plunge and shower baths opens. The teams have been practically decided upon and will be announced in the course of a few days. The leaders declare there will be no lack of enthusiasm when the campaign is got under way.

For a city of over 25,000, the sum of \$36,000, or less than \$1.50 a head, seems rather the reverse of an extravagant sum to spend for the purposes named, when the objects to be served is the care of the youth of the city. This is the amount the management of the Y.M.C.A. is aiming at raising. It will be Edmonton's shame if they fall short of their well-founded hopes.

There is hardly an institution which has a call on the sympathies and support of a wider constituency than the Y.M.C.A. No denominational test is

applied. Young men of whatever creed and from whatever place they may fall, are made welcome and an effort is made to make them feel at home. No undue pressure is put upon them, but the surroundings are the most helpful imaginable.

The Y.M.C.A. believes in the motto, "Memento in corpore sano." The body is cared for as well as the mind and the higher faculties. An important and growing part of the work is the boys' department, where the boys are taught to be manly, self-reliant and always alert.

Let the canvassers see you when they make their tour of the city when the campaign opens next week.

## AVERAGES OF WEST. C. LEAGUE

Edmonton Players Star in all Department—Morse's Marvelous Record

The official averages of the Western Canada League were not mailed to the Edmonton papers, but the Capital was enabled to get the standing from Manager Moose Jaw. White was favored with a copy.

Edmonton is really the champion team for its players, lead in nearly every department of the game. Morse heads the league, with Clynts second. Mills, 320 and Ditchko 348 are also in the charmed circle of 300 hitters, with Hickley 298 knocking at the door.

Morse leads the shortstops with the phenomenal record of only 17 errors in over 600 chances. He had almost 100 more chances than any other fielder in the league.

Peter also leads the base-runners with 75 thefts, Shafer being second with 70. Dellor is the leading pitcher with 22 wins in 28 games. Manning, of Calgary, being far down the list.

The averages provide some interesting reading.

Fosberg, a Winnipeg pitcher, who was only seven games tops, the leading list with a percentage of .421. Avery and Dretchko, also pitchers, come next, but the real leader is Pete Morse, the Edmonton shortstop, who hit .340 for 97 games. Other regulars within the charmed circle are: Clynts, Calgary .325; Mills, Edmonton, .320, and Smith, Calgary, .304. Vandine, Winnipeg, in 37 games hit .316.

From a hitting standpoint, with the men named for their accustomed positions and with a reasonable percentage of games played, the star team would be: b. Starbuck, Moose Jaw, 14 games, .291; c. Spencer, Edmonton, 48 games, .280; 1b. Hurley, Moose Jaw, 89 games, .281; 2b. Mackin, Leifbridge, 71 games, .284; ss. Morse, Edmonton, 97 games, .340; 3b. Smith, Calgary, 97 games, .304; 4. Mills, Edmonton, 97 games, .320; cf. Luss, Edmonton, 97 games, .228; rf. Isbell, Winnipeg, 87 games, .282.

Figured out on the same basis, the best fielding team would be: p. Sage, Regina, 30 games, .987; c. Spencer, Edmonton, 48 games, .972; 1b. Kibbickery, Calgary, 95 games, .988; 2b. Connors, Calgary, 97 games, .934; ss. Morse, Edmonton, 97 games, .964; 3b. Holmes, Brandon, 87 games, .942; 4. Mills, Edmonton, 97 games, .983; cf. Luss, Edmonton, 97 games, .983; rf. Duley, Leifbridge, 48 games, .963.

Smith of Calgary leads in extra base hits. He had seven doubles, ten triples and ten home runs. Vandine of Winnipeg, although in only 37 games, had ten doubles, three triples and five home runs.

The averages also contain the standings for the two divisions of the league. Calgary is announced as winner of the first while Edmonton is awarded the palm in the second. Who will get the rag remains to be seen.

## NOT FOR SULLIVAN.

Chicago, Oct. 10.—Billy Sullivan, receiver for the Chicago White Sox, will not attempt to catch a baseball dropped from an aeroplane by Charles F. Willard, while sailing at a height of 1,000 feet. Sullivan said today that he still had a desire to play baseball a few years more.

Willard offered to make a flight at Hawthorne track, carrying a dozen baseballs with him and drop one at a time until Sullivan caught one. He thought it would be great sport.

Sullivan said he might as well try to stop a bullet as to be on the receiving end of a ball whizzing from an aeroplane.

## NEW RINK FOR CALGARY

Calgary is to have a new rink with a seating capacity of 5,000. F. C. Lowes is having the rink built, the location being central and on the car line. During the winter it will be used exclusively for hockey while in the "lowwinter months" it will be used for the summer the Horse Show and similar functions will hold sway in it.

With the building of a large rink, Calgary may go in for professional hockey, as there have been rumors of a Stanley Cup team starting out from that city.

## SOME SURPRISES IN THE EAST

Hamilton Tigers won from Ottawa—Montreal downed Argos—Varsity won

Ottawa, Oct. 10.—A record breaking crowd was in attendance here at the opening game of the intercollegiate league between Queens and Ottawa colleges. Ideal weather prevailed. Queens won by a score of twelve to one.

Play had been in progress only a few minutes when the visitors commenced to score and the tally ran up rapidly till it stood eleven to zero. Near the close of the fourth quarter Queens was forced to rouse making a single point for college.

## Other Results.

Intercollegiate—At Toronto—University 10, McGill 9.  
Interprovincial—At Montreal—Montreal 25, Argonauts 10.  
At Hamilton—Hamilton 7, Ottawa 2.

## OLD COUNTRY SOCCER.

Glasgow, Oct. 10.—Following are results of Scottish league football played Saturday.  
Aberdeen 3, Motherwell 0.  
Partick Thistle 2, Airdions 1.  
Hamilton Academy 1, Third Lanark 4.

Millwall Athletic 1, Portsmouth 1.  
Queens Park Rangers 3, Luton 3.  
Norwich City 0, West-Ham United 0.

Coventry City 0, Brighton and Hove Albion 2.  
South United 1, Exeter City 0.  
Southampton 0, Swindon Town 4.  
Plymouth Argyle 1, Bristol Dovers 2.

Watford 1, Crystal Palace 1.  
Leiston 4, Brentford 1.

## MOOSEJAW BEATS REGINA.

Regina, Sask., Oct. 10.—In a fast snappy and somewhat scrappy game of football, Moose Jaw on Saturday won their second rugby victory over Regina this season. The game was close, the visitors winning out with a score seven points to six in their favor. Large crowds of supporters accompanied the Moose Jaw team to this city.

## LES MAGNIFIER

## TO TELL TIME

Yale Athletic Coach Says it is the Only Proper Way to See Fractures of Seconds at Sprints.

Coach Johnny Mack of the Yale athletic teams at a recent Boston athletic meet in which he acted as timer, used a magnifying glass in order to be sure of the time in sprinting races. He says it is the only proper way to see the time on a stop watch as it is easy to overlook ticks of a second on a watch but by his new plan the time is sure to be right.

## TIGERS WON FROM THE Y.M.C.A.

Alberta Champions Took First Game in Calgary City League—Score was 11-10

The first rugby game for the city championship of Calgary, took place on Saturday and resulted in a win for the Tigers over the Y. M. C. A. by C. H. Belanger, president and coach of the Eskimos, refereed the game, while Pierpont Wood acted as umpire.

Mr. Belanger, when seen last night by the Capital, said it was one of the hardest fought games ever played in Alberta. Though the interest was very keen, the players observed the rules and there was very little intentionally rough work. The hard play resulted in three players, Madden of the Tigers and Caelean and McMaster of the Y. M. C. A. being injured, but the latter two were able to stick out the game.

A regular young gear blew down the field all through the game and the sand at Metavia Park flew here and there filling everybody's eyes. On account of the gale, Referee Gibson made a local rule, which allowed the team having a rouse or touch in goal scored against it, to take the ball out 35 yards instead of 25 as it was almost impossible for a kick to make any headway against the wind. This new rule worked well and favored neither team, as both teams scored 3 rouses or kicks to the dead ball line.

The score at half time was 7 to 4 in the Tigers' favor, and the Y. M. C. A. had a little the better of the play, after the interval, but just failed to win out.

When asked about the respective strength of the two teams, Mr. Belanger said that the forward lines were as evenly matched as possible. Barton and Cornfoot were on a par at quarter but the Tiger halves were second to the Y. M. C. A. Madden, while in the game, rose to the backfield, while he was ably seconded by Ross and Pinkham. Dobbie, the old war horse, played full back and did it well. The Y. M. C. A. halves were not so good in judgment and failed to carry the ball with any effect, besides neglecting to punt when they had the wind in their favor.

Next Saturday the Tigers will have Doc Gibson and a new man who weighs over 200 lbs. on the line and should win by a comfortable margin. In the event of their winning the Calgary City championship it is expected McMaster will be found on their line-up when they next play in Edmonton.

In spite of the unpleasant weather over 600 people watched the game.

The teams were:  
Tigers (1)—Back, Dobbie; half-backs, Madden, Ross, Pinkham; quarter back, Barton; scrumwings, Woods, Johnson, Johnson; wings, White, Le Marsh, Bell, Priestly, McLean, Fitzgibbon.

Y. M. C. A. (2)—Full back, McLean; half backs, Dunphy, Wark, Morgan; quarter back, Cornfoot; scrumwings, Fullerton, Pegler, Miller; wings, Stagg, Colville, Norup, Sinclair, McMaster, Rae.  
Referee—C. H. Belanger, Edmonton.

## How Points Were Scored

Tigers—Rouse 1; try 5; converted try 1; touch in goal 2; kicks to dead ball line 4. Total 11.  
Y. M. C. A.—Kicks to dead ball line 4; rouse 1; try 5; total 10.

## LAJOIE SAYS GAME LOOKS EASY FROM SEAT IN STAND.

Larry Lajoie missed his first inning this year when he failed to play against Boston last Wednesday. Nap got in his suit before the game, but found that he could barely raise his arm.

Trainer Schuster got busy with the injured right shoulder, but could not relieve the soreness and stiffness. The point of the shoulder was one mass of bruises and discolorations as a result of the foul tip that struck him in Tuesday's game. The bruised spot is the size of a man's hand.

Larry saw the game from a box. "It doesn't look the same from up here as it does out there on the field," said Larry after the game. "From here it seems to me that the whole thing is perfectly simple. From the point of view of the fellow at the bat all of them should get hits, and looking at it from the fielder's viewpoint every play should be a putout."

## RUGBY AT THE UNIV. OF ALTA.

Students Are Taking up the Game—Eskimos Will Probably Meet Calgary Tigers

The Eskimos had a practice on Saturday which was far from being well-attended. A number of the regulars were absent, and this made the development of team play an impossibility. It is less than two weeks now until the opening game of the Alberta Championship series, so the boys must get busy if they hope to recover the cup. The victory of the Tigers over the Y. M. C. A. on Saturday by 11-10 puts a different aspect on the series, and present indications seem to point to the Tigers as being the Eskimos' opponents for provincial honors.

The Eskimos out at practice on Saturday were: Wilson, Dykes, O'Donahue, McCarty, Wilson, Murphy, Crickmore, Grant, Bishopric and Coombes, while Rev. Robt. Pearson and Deacon White looked on with approval. Deacon was formerly an end on an American university team and knows a few wrinkles that can be applied very nicely to the Canadian game.

In addition, the Deak is showing the back division how to kick spiral punts. Coombes is a new man who played on the Calgary Y. M. C. A. team two years ago. He has a good knowledge of the game and his fine low tackling will make him a valuable outside wing for the Eskimos. Grant, the well-known Association football player, is being tried out on the half line and will most likely catch a place. He has good hands, kicks well and is a hard man to tackle. Crickmore is being used at quarter back and will make good with practice.

His falling at present, is a slight hesitation in passing to the halves. Parsille, Alec McDonald, Scrapper McDonald and Conway have not been to practice for a week and Captain Gibson would like to have them down on Tuesday night, without fail.

The University of Alberta is taking up rugby, and on Thursday had over twenty men of practice. The students are taking kindly to the game and already an intermediate Eskimo team is being talked about, to give the collegians a tussle. It is by such steps as these that football will be established in Edmonton, and the players developed will prove fine for the Eskimos next year.

## ALL-STARS BEAT WESTMINSTER

Picked Team from Nationals and Vancouver won from Champions

Vancouver, Oct. 10.—In a downpour of rain and a sea of mud, a combined team of the Nationals and Vancouver clubs defeated the New Westminster world champion lacrosse club by 5 goals to 3.

It was the third exhibition game played on the New Westminster fair ground, but even with the fair in progress, was poorly attended. Three of the Nationals, Cathrine, Gaudier and Lavellette, were with the Vancouver. The Nationals leave for the East on Sunday. They were tendered a banquet on Friday night by the terminal city lacrosse enthusiasts.

## FLAMING HORROR.

(Continued from Page One.)

them, save parts of the shoes the bodies were just the same in appearance as if they had been baked in an oven. The skin was not broken and was a deep brown color. The mother still held her baby tightly clasped to her breast and together were placed in boxes.

This morning searching parties were organized and went out south to relieve the suffering and pick up the bodies of the dead. It will be days before they can be reached, owing to the fact that great trees have fallen over the roads and will have to be chopped away before wagons can be got through.

In some cases homes are filled with refugees without food, a few miles from town.

### Thirty-two Face Starvation.

Matt Hendrickson came in from his claim three and half miles south west of Beaudette this morning. Thirty-two people are housed in his place, with food he says. When the fire struck his place sixteen of them got into an eight foot deep fire well and remained there on the verge of suffocation while the fire passed. It so happened that while the fire passed a cyclone of fire passed directly over the well, it passed to the south east of his house and it did not burn it, although everything else inflammable about the place burned. Many of the settlers got to the Rapid River and saved themselves by wading into the water, although many of them were burned about the face.

Seven bodies, probably the Rolin family, lie in the clearing where they sought refuge in an open space in the woods, all to no avail. The fire is still threatening the destruction of the few houses along the river in old Beaudette.

The Engler company's people gave up hope of saving their property, two miles down the river. This afternoon at 2 p.m. they sent all their horses to a place of safety. The fire was then all around the mill property and the smoke is so dense it cannot be ascertained whether it is burning or not.

In Rainy River over a hundred deputies have been sworn in and are divided into groups of ten to fight the fire from all sides.

### A Gale Spits Doom.

A wind such as sprang up Friday night would send our doom. Tired and worn out, the destitute people roam the streets, although the business men are showing a fine spirit of hopefulness and as soon as the people are provided for, will organize plans to consolidate the two towns of Spooner and Beaudette and build better than ever.

This morning Mayor Williams of Beaudette called the business men together on the street and an organization was effected to distribute supplies. Word has been received that supplies are on the way and great relief is felt.

### C. N. R. Bridge Burned.

The great bridge on the C.N.R. was burned out six miles west of here. A freight train ran on the burning bridge and the engineer had got half way off the bridge when it gave way. Several cars of lumber were down with the bridge completely damming the water. The engineer and fireman jumped. The conductor and brakemen and several refugees in the caboose had a narrow escape.

Along the track on the river side were great piles of lumber which were burning and every minute the people in the caboose expected to be roasted alive. They lay down on the floor to keep from smothering. Occasionally some of the men would crawl from on their stomachs and scrape sand on the burning ties to keep the flames from the caboose.

### All Live Stock Burned.

Practically all the live stock in the country is burned. The bodies of horses and dogs and cats and other domestic animals lie about the streets. As an idea of the heat on the street, a horse died to a telephone pole at a street corner. It died with the splintered in its teeth and the iron pieces of its harness lay on the ground while not a vestige of a strap remains. Yet only the hair and outside skin of the horse is left. Half a dozen cats and dogs have been killed to put them out of misery. A dog belonging to L. Tonneggen, cashier of the First State Bank, went completely blind and one leg was half burned off. He heard his master's voice and crawled to him out of the flames. It was rumored that the Spooner school was saved. This is not so, not a building in the town escaped.

### Communication Lost.

Last night the bridge burned out west of Lacina, on the C.N.R. and communications with Port Arthur were cut off. There has been no train service for two days, and there will probably not be any for twenty-four

hours, except a special is made up for Duluth.

The Spooner mail was saved, it having been brought to the depot just before the fire struck the town, but the Beaudette mail and everything in the post office was lost. Postmaster Dalquist was badly burned trying to save some of the valuable property.

### Policemen Beaten Up.

A special policeman, Walter Farler, was attacked on Fifth street, Rainy River last night. A gun was fired close to his face but the bullet glanced off. He was then beaten up badly. One eye was destroyed and his chances of recovery are very slim, as he lay all night in a ditch in an alley, unable to call for help.

Armed guards patrol the streets at night, but so many men are carrying fire arms that it is dangerous to be out at night. So far, however, the hundreds of laborers have acted admirably, and it is wonderful the forest is even the worst of the flames.

They are for the most part without clothing or money other than what they have on their persons. Yet they are trying to show a brave spirit.

Railway officials arrived from Port Arthur early this morning, and the local officers are holding all available cars to enable the people to escape should the fire get into Rainy River. Over fifty freight cars were burned on the tracks at Beaudette and all the coal on hand for the railway.

It came so suddenly that the people who were packed up fearing such a contingency did not get a chance to save a thing.

### Swamp Burns Like Coal.

Had the fire come in two or three hours later when people were asleep, the death rate would have been appalling, as no rain has fallen in this district since the snow fell, save enough to melt the ground once or twice, so that the swamp ground burns as fiercely as coal and makes a dense, pungent smoke so stifling that no one can live in it. Our only hope for safety is on protracted rains or severe cold. Since, as the ground is burning three and four feet deep and there is no way of putting it out, outside the radius of a hydrant.

The Canadian government have forwarded some tents to house the people and they will be put up tonight. What seems to be most needed is plenty of blankets and food.

### Eye Witness Describes.

Rainy River, Oct. 9.—James Rowley, who was out several miles south of Beaudette when he first heard the roar of the flames thus graphically describes his experience:

"I started to run for town, but the fire was coming from the south and I caught up to a man with his wife and little boy who were completely exhausted and taking the baby from them I urged them on. We had to pass through heavy black tamarac and willow never in the worst gas through it it was not that the wind shifted to the north. Very few homes escaped. Four men from Davenport, Ia., who were out looking for homesteads, one of them named Simmons, at one of their lives. Matty, a man named Rolin and family of eight are all dead. The Goffin family, consisting of father, mother and three children, and Julius Boten, wife and seven children, are among the known dead.

"Among those missing are Sever, Hagen, George W. Ewing of Arlington, Minn., Charles Baker and Patrick O'Meara. I am organizing a party to go out in the morning to search for the dead and bring relief to the injured. I believe this fire will go clean through hundreds of miles of bush and hundreds of lives will be lost as there will be no escape in such a cyclone of fire as that of yesterday."

### Burning Bridge Collapsed.

The most distressing feature in the experience of Robert McAnany was his agony of mind when he heard and saw the approach of the freight train that went through the bridge, but was unable to give a warning that the train was on fire because of the great heat. The train went on to the bridge slowly and had just about reached the center of the bridge when the foot span when it began to sink slowly taking the cars with it. Then the whole timbering fell with a crash and he thought sure that some of the trainmen had been killed, but he stayed where he was until morning when he found they had all escaped by jumping.

Oscar Johnson, wife and three children, stood five hours in the Beaudette river, ducking their heads when the heat became too intense. They saw the water in the river was heated to an uncomfortable temperature and that steam rose from the surface when they escaped it was through a furnace of dying coals with here and there a blue reaching out for what it might destroy.

Mrs. A. C. Ragson, aged 60, a pioneer, stood in a freight car in the relief

train with her granddaughter in her arms and told the marvellous tale of a white pony coming up to her on the track with neck extended and whinnying as if seeking aid.

She called the pony to her and it stood while she mounted it and together they went up the railway track at high speed while the forest blazed on both sides as they flew along. She says she counted nine bodies along the rails.

### No Escape for Settlers.

The destruction of \$3,000,000 worth of lumber, mill property and millions of dollars' worth of timber, pales into insignificance beside the horrible personal suffering and the shocking death toll.

There was no escape. The poor settlers were hemmed in their little clearings with great forests on all sides, and with only a forest road connecting them with the main highway.

Horses and cattle, released by their owners at the approach of the flames, fled to safety and accompanying them were hundreds of deer, caribou and moose, and in truth the cattle lay down with bears, wildcats and timber wolves and with no danger from them.

The women have borne up under the terrible strain with wonderful fortitude and all the stories are that the women, and not the men, were the heroes.

When the refugees fled in panic for their freight cars that had borne them from Rainy River yesterday men crushed women and children in spite of the fact that the cars were choked so full that standing room was at a premium. They insisted in cramming themselves in.

Miss Myra Burt, a prominent young woman of Beaudette, stationed herself at the door of one car and kicked every man in the face with her pointed shoe who attempted to jump in and herself reached out and poked babies from the arms of mothers. When the train started there were five babies aboard whose mothers were behind. They are being cared for in the hospitals here.

### Winnipeg Sends Help.

Winnipeg, Oct. 9.—The assistant chief, a dozen fire engines, a steam engine, and other equipment was dispatched from here on a C. N. R. special to Warhead as the result of an appeal from Mayor Moody of that city. It is reported here that a shift in the wind today caused the flames to jump Rainy River and destroy the Rap. Portage Lumber Company's mills.

Warhead, Minn., Oct. 9.—The detachment of firemen and two steam fire-engines under the assistant chief, Code, arrived tonight. Thirty experienced fire rangers have been sent here in answer to an appeal to be state authorities. The town is the centre of a circle of flames, the fire zone being seventy-five miles wide.

When he heard the freight train approaching the terrible bridge, Robert McAnany was in agony of mind through being unable to give warning that the train was on fire. The train rolled on to the bridge slowly and had just about reached the centre of the single span began slowly to sink. Then the bridge fell with a crash. He waited till morning and then found to his relief that the train men had all been saved by jumping.

### CALEDONIAN FOOTBALL CLUB DANCE.

The representatives of the Callies A and B held a very enthusiastic meeting on Thursday evening, the business on hand being the final arrangements for their annual dance which is to be held on Thursday 13th October in the Separate school hall. The final arrangements were left in the hands of the committee. It is well proven that the Caledonians are the leading entertainers in the city, both in the sports and in the concert or dance hall. This is easily seen from the large number of patrons who look forward to participating in the Callie's entertainments. The Callie dances are always enjoyed and this one will prove no exception to the rule. The committee intend to have the hall suitably decorated for this occasion. Also to have a catering and reception committee whose duty it will be to look after the strangers and visitors. This will be a large and a large program of popular dances, the committee feel that this dance will be one of the best they have ever held. Grand March at 8.30 prompt.

### CHANGES IN B. C. CABINET.

Victoria, B.C., Oct. 10.—W. R. Ross of Fernie, will be taken into the provincial cabinet as Minister of Lands; Price Edithson becoming Minister of Finance; W. J. Now, who is acting as financial minister, retaining the Attorney-generalship. Ross will be appointed in Fernie by J. W. Bennett, editor of the Fernie Ledger.

### STOCK SHOW HERE.

Mr. Harrison of the Edmonton Exhibition, announces that there will be a Fat Stock Show and Bull Sale held in Edmonton some time in the month of April. The exhibition is determined to make Edmonton the centre for the sale of live stock and this is their first step towards that end.

## ALBERTA LED THEM ALL AT STATE FAIR

Secretary Harrison of Exhibition Association Back From Dry Farming Exhibit.

### PROUD OF HIS PROVINCE

And Now Quite Sure Edmonton Fair is Better Than Any in the Whole West.

Mr. Harrison's face was wreathed in smiles this morning. He has just returned from the exhibit at Spokane, Wash.

"What Alberta, you can say, was the whole thing there," said he. "Not only was her provincial exhibit easily the best but the individual exhibits of different towns and districts took prizes galore."

"Was it a dry-farming exhibition?" Mr. Harrison was asked. "No, it was the state fair of Washington and a certain section of the grounds was set aside for a dry-farming exhibit, in which those states whose annual rainfall was less than 20 inches were allowed to compete. Dry farming is a grossly misunderstood term. It is little more than using all the moisture you have—in other words, good farming. The competition represented most of the western states, though Alberta was the only province of Canada with an exhibit."

"Edmonton, of course, had no individual exhibit, though this district produced practically all the vegetables and roots for the Alberta display, which took the silver cup for provincial and state exhibits. Not only was our exhibit best, but our delegation was the second largest on the grounds, and our speaker, Hon. Duncan Marshall, was easily the orator of the day. We led the others in exhibits, speakers and the attention of the public."

The fair grounds at Spokane are good, but Mr. Harrison, "but really, a person has to go away from home to learn how good our own is. They have a fine midway but our layout is fully 50 per cent. better than theirs. It convinced me what I had heard said many times, but refused to believe, that ours was the best fair in Western Canada or the Western States."

Speaking of Spokane, Mr. Harrison said: "I took a run out on the suburban line around the city which goes out as far as Coeur d'Alene. It is wonderful how it is developing the city. They are making a strong effort to make the city attractive to farmers with market and transportation facilities. Consequently the farmers use the suburban lines, come into town and spend their money. It convinced me that the suburban line is bound to be the making of Edmonton."

A mistake. The little cars that fringed me. I lost them yesterday. Among the things above the sea. Among the winds at play.

Elizabeth Barrett Browning.

That is to say, I thought, you know, that I had lost them. The girl was very fine, though. And they only had one chance.

Chicago Record-Herald.

A compromise.

"Sir," began Lord Brokeleigh pompously. "I've called to request your daughter's hand in marriage."

"That's all of the question, my man," replied old Rostley. "However, I don't want to see altogether uncharitable, so here's a tip for you."

Catholic Standard and Times.

Signs.

Signs in the heavens. The storm flag's unfurled. Trouble is coming. To worry the world. Life—such a riddle! But only in your chance To hunt up a riddle And—how was it done?—Atlanta Constitution.

A Fair Rate.

"We wish to arrange for an exchange of prisoners," announced the South American dictator.

"On what basis?" inquired the leader of the other side.

"The usual basis—equal generals for a good, tough private!"—Louisville Courier-Journal.

## ESTIMATE OF DEAD UP TO A THOUSAND

At Least Five Hundred Have Perished Already in the Fires, And Perhaps More.

### WAS A CYCLONE OF FIRE

Flame Burst Upon Towns Without Any Warning Whatever—No Chance to Escape.

International Falls, Minn., Oct. 9.—The estimate of the number who have perished in the Rainy River hobnast is placed at 500 and that is considered conservative. Some say that 700 perished, while others are inclined to think these estimates are exaggerated and place the dead at 200. It is generally conceded, however, that 500 persons lost their lives. There is nothing by which any reports can be confirmed or disproven, as all the wires are down and trains are running into Rainy River. When a special report train bearing provisions for the Rainy River and Bemidji arrived a company of National Guards were on it. They took charge of the distribution of supplies and the preservation of order, martial law in the burned district having been proclaimed. A relief committee, appointed by Mayor Berg of International Falls, is also assisting in arranging for the care of the survivors. There are nearly 30 refugees quartered here. Typist has broken out, there being already three cases. Among the number there were six men, badly burned, who had lost everything, and are absolutely destitute.

The destruction of Beaudette and Spooner was almost instantaneous. Only half an hour before the towns were a mass of flames the fire was reported five miles away. When the horrible news spread that the fire was close at hand and that the towns were doomed, the people rushed from their houses to the steel bridge which spans the Rainy river. Many stories can be told of feats of endurance and courage which would put fiction to shame, but which pass with but little comment.

The results of the great holocaust are indescribable, and it is considered here that other forest fires pale into insignificance when compared with the some days yet before a fair list of the dead can be obtained.

High winds are reported and it is feared that the fire has started again and that what was left of Beaudette is now destroyed.

### Household Hints.

If you get a scratch on your hardwood furniture, rub it with a little butter. It will take the scratch out of a place of bread and rub over your gift frames. They will look like new.

Do not put milk in cut glass tumblers. Milk clouds glass so that its original brilliancy cannot be restored. A soft rag moistened with lemon juice and then dipped in silver whitening will be found excellent for cleaning piano keys.

### Recent Inventions.

By pressing a button behind the counter a new electrical thief catcher for stores locks all doors and rings a bell in the street.

A device for the theft of an automobile a lock has been patented which, inserted in a gear shifting quadrant, prevents the lever being moved.

A double frying pan, hinged in the center, has been patented by an Iowa man so that two articles can be cooked at once and to save space by folding it when not in use.

### AWARDED "GRAND PRIX."

The international jury of the Brussels exhibition, as the result of the judging prior to the disastrous fire, awarded Messrs. J. S. Fry & Sons, Ltd., the "Grand Prix," the highest possible distinction. This award has now been confirmed by the superior jury. The Bristol firm is to be congratulated upon the latest addition to their long list of international honors. Messrs. Fry's new Brussels exhibit is, perhaps, the most attractive one of its kind in the British section.

MAY NOT BE HANGED.

Toronto, Ont., Oct. 9.—It is understood that it is not the intention of the crown to press for the carrying out of the death penalty in the cases of Mary Delan and Thomas McNally, sentenced to be hanged on Dec. 14 for the murder of their illegitimate child.

Frederick Clarke in "The Manxman" at the Empire Theatre, three nights commencing Thursday, October 13th.

### The Water Pump.

The most ancient description we have of a water pump is by Hero of Alexandria. There is no authentic account of the general use of the pump in Germany previous to the beginning of the sixteenth century. At about that time the endless chain and bucket works for raising water from mines began to be replaced by pumps.

### Needle's Journey.

A needle which entered the left knee of a dressmaker at Schroda, Posen, emerged some days later from the sole of her right foot.

### Volcano Cooking.

The Maoris of New Zealand cook their potatoes and other vegetables in volcanic heat. There are a few volcanoes in New Zealand, and some of the Maoris live up in the mountains near them. They make the volcanoes do several useful things for them, but the queerest is the cooking.

### Caste in India.

The barbers of India rank with the washerwomen. The son of a barber must be a barber all his life, and his wife must be a barber's daughter.

### The St. Lawrence.

Vessels of 4,000 tons can ascend the St. Lawrence river to Montreal, a distance of 1,000 miles from the sea. Only one other river in the world, the Amazon, is navigable to such a distance for craft as large.

### Jewels on an Idol.

The jewels of an Indian idol must be worth stealing if many of these remarkably hideous images possess such valuable head ornaments as one made for the idol Parthamathy, in the Triplicane temple at Madras. The ornament is worth some 50,000 rupees and is made of gold, studded with diamonds, emeralds and rubies, the largest emerald being valued at 1,000 rupees and the biggest ruby and diamond at 300 rupees apiece.

### Macedonia.

Macedonia has a population of about 4,000,000. Three-fourths are Christians and one-fourth Turks. Nearly half are of Bulgarian ancestry.

### Orchards.

Orchards generally produce full crops only every other year. This is because the full crop of one year so exhausts the fruit producing qualities of the soil that it is not able to make a full crop the next year.

### Presbyopia.

Old sight (presbyopia) begins at about the age of forty. It is first noticed by the tendency to hold the paper farther off. The glasses should not enlarge the letters, but simply render them clear and natural at the ordinary reading distance. Whatever the ocular defect the proper glasses should be obtained as soon as it is discovered.

## ARTHUR GRENFELL VISITS EDMONTON

Has Large Interests in Alberta and Has Brought British Capital Here.

### CONFIDENCE INCREASES

Annual Crop Reports and Reports of C.P.R. are Great Boosters For Canada.

Arthur M. Grenfell, an Englishman, who has been responsible for a remarkable influx of British capital into Canada, and president of the Canadian Agencies, Ltd., of London, accompanied by his brother, Mr. Riversdale Grenfell, Captain Newton, late A. D. C., to Earl Grey and now connected with a Montreal financial firm, and Major St. Auben, is a visitor in Edmonton.

Mr. Grenfell has large interests in Alberta, among them being the Southern Alberta Land Company, which owns 500,000 acres west of Medicine Hat, and the Western Canada Land Company which controls 300,000 acres west of this city. Another big Canadian enterprise with which he has important connection is the Lake Superior Steel Corporation.

A Capital reporter was accorded an interview with Mr. Grenfell this morning in which Mr. Grenfell expressed his abounding faith in Canada. He declared that this country was highly regarded in the old country.

"Englishmen regard Canadian investments very highly," he said, "and there is bound to be a steady flow of British capital into this country. In the next few years we will spend in Southern Alberta over \$5,000,000."

Mr. Grenfell is associated with the Duke of Sutherland in a colonization enterprise. It is intended to devote a large tract of land under their control in this district to the locating of British settlers of an agricultural class. They will also establish a model farm at Wahamun.

In speaking of the Lake Superior Steel Corporation, Mr. Grenfell stated that the operation of a plant in Algoma would probably mean cheaper steel for the west, at any rate a better supply.

"Owing to its geographical position," he said, "the Algoma Steel company, a subsidiary of the Lake Superior corporation, is the nearest steel plant to the west and therefore should be able to supply the needs of the prairie provinces less the heavy transportation expenses in bringing from the east this necessity of modern development."

Mr. Grenfell has another reason for being interested in Alberta in that his company holds the last issue of the municipal bonds of Edmonton, Calgary and the provincial government. The company sold the Edmonton issue of \$300,000 at a good figure. In connection with that Mr. Grenfell and his associates had a conference with the city authorities this morning.

"The annual crop reports," concluded Mr. Grenfell, "showing the millions of new wealth taken out of the ground each year, together with the annual reports of the C. P. R. showing constantly increasing traffic, and also increasing dividends, probably do more than anything else to strengthen the confidence of the English financial

world in the stability and future of Canada."

Mr. Grenfell and party is travelling in Sir Thomas Shaghnessy's private car. They will remain in the city for a couple of days.

An amusing incident happened to the Grenfell party yesterday. In an automobile they were making their way out to Independence and Bon Accord, when the machine inadvertently ran into a slough. All efforts to get the car out were unavailing, and at last a team had to be procured and after much struggling it was hauled out. This little incident happened about half way to St. Albert. They went on to St. Albert and on arrival decided that it would be better not to go any further and accordingly returned back to town.

On the way, the chauffeur, being somewhat of a sporting man, so it is reported on good authority, except beneath a tree on which was seated a partridge, and with a shot gun succeeded in bringing it to earth, greatly to the enjoyment of Mr. Grenfell, who is a sporting man himself.

## NOVA SCOTIA MINE HAD EXCITEMENT

Old Strike Revivified and Picketing at Springfield Mine Resumed With Vigor.

### LEADERS ARE ARRESTED

Eight of Them Face Magistrate—One is Elder in the Presbyterian Church.

Halifax, N.S., Oct. 10.—The mining company, of Springfield, had unlooked for excitement during the past week. Following an injunction granted by Judge Drysdale which virtually stopped picketing a period of lethargy set in. Now came to Springfield and found employment with the company without interference by strikers.

Last week the scene changed. James D. McLennan, provincial organizer of the U. M. W. from Glace Bay, arrived in Springfield early in the week. A mass meeting of the strikers was held behind closed doors and the morning following picketing of an aggressive although passive character was resumed in greater force than ever before. Those of the strike breakers who did not live behind the palisade had to run the gauntlet of from three to six hundred men. The company acted quickly and had warrants issued for eight of the principal U. M. W. leaders. The men arrested were J. B. Moss of the Nova Scotia U. M. W. Executive, A. C. Bonnyman, president of the local lodge, Emil Michelson, Lionel Dobay, Richard Richards, W. A. Matix and Davis Colwell.

The last mentioned is an elder of the Presbyterian church and is one of the most highly respected citizens of Springfield. The trial was called for Saturday afternoon before stipendiary Ross, but before any evidence was taken an adjournment was made until next Saturday at 10 o'clock. Mr. Moss expressed the view that the men would ultimately win out, that the mines could not be successfully operated by the class of labor employed, that the longer the company operated under existing conditions, the more money it would lose.

Over against the statement of Mr.

then the troops turning out on parade. Why the thing is an insult. I don't care what denomination it was meant for. I wouldn't let my regiment turn out on the 12th of July last year. The militia should be independent of religious matters altogether. The matter will come up in parliament and we will get at the bottom of it.

# TO BUILD A BIG STORE

## First, Build a Big Merchant

Emerson said that "an institution is but the lengthened shadow of one man."

A store is no greater than its owner. It will grow up to the stature of his biggest ideas—but no larger.

Every store in this town is GROWING UP TO ITS OWNER'S SIZE.

So that, no matter how small it is today, it will become a big as he determines it shall be.

For your "natural merchant" is a big advertiser. He may be able, just now, to use but a small space—but he is getting ready to use big space. And he uses the small space PERSISTENTLY, making the advertising as inevitably a part of his expense as anything else—and aiming at a constant expansion of the space used.

That sort merchant will Build a Big Store—for he is, potentially, a Big Merchant already.

# THE CONQUEST of CANADA

By BOOTH TARKINGTON.

Author of "Cherry," "Monsieur Desaulces," Etc.

COPYRIGHT, 1905, BY HARPER &amp; BROTHERS

"I never saw him," Joe replied, then caught himself. "Oh, see what you mean! Yes, he's all right."

They had come into the hall, and Eugene was removing the long coat, while the stepmother looked at him thoughtfully.

"Gee," asked the latter in a softened voice, "have you seen Mamie Pike yet?"

"You will find, my young friend," responded Mr. Bantley, "if you ever go about much outside of Cleburn, that the names are supposed to be mentioned indiscriminately."

"It's only," said Joe, "that I wanted to say that there's a dance at their house tonight. I suppose you'll be going?"

"Certainly. Are you?"

Both knew that the question was needless, but Joe answered gently:

"Oh, no, of course not." He leaned over and fumbled with one foot as if to fasten a loose shoestring. "She wouldn't be very likely to ask me."

"Well, what about it?"

"Only that—that Arle Taber's going," answered Mr. Bantley, "and he's one of the stars, which he had begun to ascend."

"Very interesting."

"I thought," continued Joe hopefully, straightening up to look at him, "that maybe you'd dance with her. I don't believe many will ask her—I'm afraid they won't—ask if you would, even only once. It would kind of make up for—be—rather—'for out there, he flashed, nodding his head in the direction of the gate.

Joe Eugene vouchsafed any reply it was left in a loud, shrill cry from above, as a small, intensely nervous looking woman in blue silk ran half-way down the stairs to meet him and caught him tearfully in her arms.

"Dear old mother!" Eugene said. Joe went out of the front door quickly.

## CHAPTER III.

THE door which Arle had entered opened upon a narrow hall, and down this she ran to her own room, passing, with face averted, the entrance to the broad, low collared chamber that had served Roger Taber as a studio for almost fifty years. He was sitting there now, in a hopeless and disconsolate attitude, with his back toward the double doors, which were open, and had been open since their hinges had begun to give way, when Arle was a child. Looking her step, he called her name, but did not turn, and receiving no answer, sighed faintly at he heard her own door close upon her.

Then as his eyes wandered about the many canvases which lined against the dingy walls he sighed again. Usually they showed their brown backs, but today he had turned them all to face outward. Twining about the moonlight (the courtesan in moonlight), dawn, morning, noon (Main street at dawn), high summer, first spring, red autumn, midwinter, all these there, he limitably decided, worked to a smoothness like a glaze and all lovingly done with unthinkable labor.

After a time the old man got up, went to his easel near a window and, sighing again, began patiently to work upon one of these faded portraits.

It was an old of a savage old lady, which he was doing from a photograph. The expression of the mouth and the shape of the nose had not changed, but the descendants and the beneficiaries under the will, and it was upon the images of these features that Roger labored.

He leaned far forward, with his face close to the canvas, holding his brushes after the Spencerian fashion, working steadily through the afternoon and when the light grew dimmer, leaning closer to his canvas to see. When it had become almost dark in the room he lit a student lamp, with a green glass shade and, placing it upon a table beside him, continued to paint.

"If I could have got to Paris for just one month!"

It had been in Canada for a long while. It grew in the face out of shabbiness and mischief, but it did grow, and if people keep on giving him a bad name the time will come when he'll live up to it. He's not any worse than I am, and I guess my own name isn't too good for a girl. And yet, so far, there's nothing against him except his bad name.

"I'm afraid there is," said Roger. "It doesn't look very well for a young man of his age to be doing no better than delivering papers."

"It gives him time to study law," he answered quickly. "If he clerked all day in a store he couldn't."

"I didn't know he was studying now. I thought I'd heard that he was in a lawyer's office for a few weeks last year and was turned out for setting fire to it with a pipe."

"It was an accident," she interposed. "But some pretty important papers were burned, and after that none of the other lawyers would have him."

"It's not in an office," she admitted. "I didn't mean that. But he studies a great deal. He goes to the courts all the time they're in session, and he's bought some books of his own."

Windsor, Ont., Oct. 9.—"No city official has any right to pull a fire alarm clock unless there is a fire," declared Magistrate Leggett this morning in the police court, in finding Al. Hamilton Trumble guilty of sending in a false alarm last Friday night.

Windsor had just passed a new alarm clock, and Trumble, who is a member of the fire committee of the city council, turned in an alarm from a downtown box to see how the firemen could handle the mammoth truck, to let in length. The truck was so large that it could not be turned in the street, and the fire department was forced to respond to the alarm without the truck. Trumble waited on the scene for the truck's appearance and when Chief Murray drove up without the truck, but was exchanged. Murray declared that Trumble had no right to send in a false alarm. Trumble said he had. Murray yesterday laid a complaint against the alderman and this morning the case was on.

"I shall fine the next person who turns in a false alarm, no matter whether he is a member of the city council," said the magistrate.

Trumble has now laid a complaint against Fire Chief Murray for using classic language to him and the case will be heard on Friday.

## FIRST EXECUTION IN FRENCH ARMY

In Many Years Took Place at Tunis—Trooper Shot for Wounding Officer

WAS SORT OF WILD MAN

He Was Grotesquely Tattooed All Over His Face—Had an Imitation Moustache

Paris, Oct. 9.—The first execution carried out for several years in the French army took place on Friday last at Tunis. A trooper in a corps of men under punishment in Africa, escaped last winter into the bush, where he lived like a savage. Recaptured and brought to jail, he stabbed with a knife a sergeant who was leading him into a cell. The sergeant was badly wounded, and came out of the hospital all right again in a fortnight. But the military code is severe and a court-martial sentenced the trooper to death for wounding his non-commissioned officer. It was not carried out at first, but on Sept. 3rd the order for the execution came from the War Office and Fuly was shot. He died courageously. He objected to being hanged, but the officer carried out the sentence. The condemned man thanked him warmly. Fuly, having kissed the chaplain, began reciting the prayer Ave Maria, when the officer raised his sword and the company fired. The man fell dead instantaneously.

Fuly seems to have been a wild creature, apparently a hoodlum from Paris, where he was born. He was grotesquely tattooed all over his face. Instead of a natural moustache, he had an imitation one branched on his upper lip. Round his right eye a picture of a single eye-glass was tattooed, and on his forehead a woman's face. The reason why the extreme penalty was carried out against Fuly, who was a trooper of the 1st Foreign, who, with another, murdered Madame Gouin in a railway train near Paris the capital sentence was committed into one of hard labor for life, seems to be that the former's crime, though far less great, was one against military discipline.

As the mother is, so are her sons and daughters. If a family of children are blessed with an intelligent mother, who is dainty and refined in her manner, and does not consider it necessary to be one woman in the drawing room and an entirely different person in her everyday life, who is a true mother and always a tender, charming woman, she will invariably see her habits of speech and perfect manners repeated in her children.

Great, rough men and noisy, bawling boys will always tone down their voices and speak quietly and try to be more manly when she steps to give them a kind word and a pleasant smile. For a true mother never fails to say and do all that will in any way help to lift up and cheer those whose lives are shaded with care and toil. The mother of today rules the world of tomorrow.

PUTTING ON GLOVES.

The best manner of putting on gloves is to open and turn back the gloves to the thumb and powder lightly. Put the fingers in their places, the thumb, and carefully work them on with the first finger and thumb of the other hand until they are quite down; never press between the fingers.

Pass the thumb into its place with care, and work on with the fingers. Push the fingers in their places, the thumb, and carefully work them on with the first finger and thumb of the other hand until they are quite down; never press between the fingers.

Pass the thumb into its place with care, and work on with the fingers. Push the fingers in their places, the thumb, and carefully work them on with the first finger and thumb of the other hand until they are quite down; never press between the fingers.

## AT THE THEATRES

SOME SLANG, THIS. Without any "ands," "ifs" or "buts" Sherman's Musical Comedy company is the swiftest moving organization that ever came down the thoroughfare, and just to show you that it is up and moving with the times it has a beautiful serenade, to present Monday called "Married Mashers."

The name implies that it is a high flyer and you can bet that the name of Sherman tagged to it, it must be high and up to the mark. Thomas Brown of course will be a big yell as the "Irish sport" and the girls will move about in swagger looking costumes. You must see Miss Lemon's "Hansons Girls." They have the "Irish Girls" shined several degrees. Hear them pipe all the latest songs and dance the best dances. All these chippings are true to life with a touch added to them that Miss Lemon alone can give. Rose H. Mitchell is a good choice looking military lady and all to the abash, while Dollie Weston has all the lines of a winner. Miss Lemon is some swell lass and Neal Anderson, Emil Kraschke and Edwin Beeson are a trio hard to beat. Any old time will be fun time when the boys this week at the big fun shop.

A WOMAN'S TACT. An experienced and observant woman declares that the most important moment of the day is a woman's peace of mind is the ten minutes that follow his return from the work of the day. At that time one word may change his whole state of feeling. He comes home usually tired, or the vexations of business during the day have frequently brought him to a point of fatigue or nervousness at which a very little thing may decide what his mood will be for the rest of the evening.

Of course, the particular disposition of every man is going to tell here, just as it does everywhere else. But the rule will hold good for the average man. The most important thing for the tactful woman to do is to wait until she sees some signs of his temper before she makes any decided move. Don't, above all things, tell him that the plumber has just sent into one of hard labor for life, seems to be that the former's crime, though far less great, was one against military discipline.

As the mother is, so are her sons and daughters. If a family of children are blessed with an intelligent mother, who is dainty and refined in her manner, and does not consider it necessary to be one woman in the drawing room and an entirely different person in her everyday life, who is a true mother and always a tender, charming woman, she will invariably see her habits of speech and perfect manners repeated in her children.

Great, rough men and noisy, bawling boys will always tone down their voices and speak quietly and try to be more manly when she steps to give them a kind word and a pleasant smile. For a true mother never fails to say and do all that will in any way help to lift up and cheer those whose lives are shaded with care and toil. The mother of today rules the world of tomorrow.

NOT WHAT YOU PAY, BUT WHAT YOU GET

Is the thing you should take most thought of.

Our prices are usually lowest on Wiring, Fixtures and other things in our line. When they are not take a close look at what you are getting and you'll understand.

Quality (not money) Talks

## THE WEATHER

Forecast.—All west, fair and moder-

ately warm. Fine weather has been general over the prairie provinces. In Alberta it has been cool, while in Saskatchewan and Manitoba it has been very warm.

Temperatures of 80 degrees and over are recorded in most districts.

	High	Low
Edmonton, cloudy	50	34
Calgary, cloudy	50	34
Medicine Hat, clear	80	36
Prince Albert, cloudy	70	36
Saskatoon, fair	70	33

Regina, clear	87	37
Minneapolis, clear	82	40
Brandon, clear	85	37
Estevan, clear	83	35
Winnipeg, clear	78	46
Emerson, clear	85	43
Port Arthur, clear	52	36

## ABOUT TOWN.

Mr. W. A. Spilling of 21 Short street died yesterday. The funeral will be held tomorrow afternoon at 2 o'clock in the Edmonton cemetery.

The city commissioners expect the new snow sweeper to be delivered on November 1st. The sweeper is being built by the Ottawa Car Company.

Welland Wilkins died last week a few days ago. The body was brought to Connelly and McKimley's on Saturday, and is being held pending instructions from his home in Manitoba.

Fred S. Lawrence, who is in charge of the Government Experimental station at Fort Vermilion, is expected in the city on the 11th, according to a wire received from Mirror Landing. Mr. Lawrence offers to address the Canadian Club, but it is not yet decided whether it can be arranged in view of the club's efforts to secure an address from T. F. O'Connor.

## A TEN DAY'S WAIT

Man With Lots of Patience Takes up Stand on Land Office Steps

A record will be established at the Dominion Land Office if the present watcher who is camping on the door-step maintains his position until next Monday. He will then have been there ten days in order to secure some land in the vicinity of Saddle Lake.

When a reporter from the Capital called on him this morning he found the watcher strolling about inside the land office.

"Won't you lose your place if anyone should step to the door while you are inside?" he asked.

"Oh, but I'm watching all the time," was the answer.

In spite of careful watching yesterday afternoon two unknown men tried to take his position but with the help of another watcher who received his reward when the doors opened this morning, he was able to keep them at bay, and they, after being ejected, went away without troubling about the third place.

## MAGISTRATE COWAN BACK

Mr. I. S. Cowan, the police magistrate, has arrived back from his tour in Europe with his bride. He took his accustomed seat on the bench this morning, and three men were duly fined the prescribed amount for being inebriated.

George H. Hay will come up for trial this afternoon for stealing goods valued at over \$10.

## DISTRICT COURT.

In the district court this morning the case of The International Harvester Co. vs. Wahlund, was heard. The trouble arose over two machines purchased by Wahlund in 1908, one of which proved unsatisfactory and for which he refused to pay. The company delayed the repairs to it, thereby causing the farmer considerable loss of time. Judge Taylor ruled that when a spring opens it is absolutely essential for the farmer to take advantage of every moment and no company has any right to cause him a delay without offering for it. Hence he dismissed the action and instructed Wahlund to return the machines in view of the refusal of the company to separate the machines in the transaction.

For Thanksgiving Day, Oct. 31, 1910, the Canadian Pacific Railway Company are authorizing a rate of fare and one-third for the round trip. Tickets will be on sale Oct. 28 to 31 inclusive, final return limit, Nov. 2, 1910.

## THE SHAM BATTLE

A sham battle in which the local militia is to participate in is to take place on a Thursday afternoon, October 13th. According to present plans, the scene of the manoeuvres will be the northern outskirts of the city. The local militia will be evenly divided, half of the 19th A. M. R., the rest and the cadets, being ranged on either side. The attacking force will muster at the packing plant and will proceed towards the Grand Trunk workshops where the defending force will be prepared to meet them.

## State Lines.

New York has more Indians left than any other eastern state.

Over 4,000 potato diggers are used in the state of Maine alone to harvest the crop. If these were all looked together with a team of horses to each it would make a procession fifteen miles in length.

The state of Texas alone could give to every man, woman and child in the whole world a building lot 20 by 100 feet and then, allowing for public highways, have over one-third of the area of the state left for the production of food supplies.

## The Sky Men.

The world is up in the air nowadays.—Boston Globe.

Aviation would be perfectly safe but for gravitation and precipitation.—Albany Journal.

Man has again improved on nature by showing his capacity to fly faster than the birds.—New York World.

The visitor may beat the carrier pigeon once in awhile, but for steady work it will be safer to depend on the pigeons.—Indianapolis News.

## Train and Track.

The south China railway system will probably be completed this year.

An automatic complex for air and steam hoses on railroad trains has been invented.

The Mexican railway has taken the place of thousands of camels formerly used in transporting pilgrims.

The pan-Americanization of the Guatemalan railway plan, which is now being proposed, aims at the inclusion of the same system of the railways in Salvador.

## BULBS for Christmas Blooming now ready

Roman Hyacinths, 75c per dozen

Don't Fail to Come Bring Your Friends

Perfumes.  
There are scores of references in the Bible to the use of perfumes by the Hebrews both in their religious services and in private life.

Cyclists' Paradise.  
Denmark is described in the report of the American consul at Copenhagen as a wheelman's paradise, with an abundance of good roads, good inns and special tracks in cities and few gradients. In Copenhagen, he says, there are 60,000 cyclists—probably a larger proportion to the population than will be found in any other city.

A White Disk.  
A white object can be seen at a distance of 17,250 times its own diameter in strong sunlight—that is to say, a white disk a foot across can be seen 17,250 feet away.

## TO LATE FOR CLASSIFICATION

FOUND—ON TUESDAY LAST at corner of Third and Jasper, a necklace. Owner can have same by applying to E. W. Department of Education.

FOR SALE VERY CHEAP—BEAUTIFUL piece of wild land, sloping south to Saskatchewan river, nearly all clear; about 300 acres in one field, being all of section 23, north of river Saskatchewan, township 50, range 1 west 5th, comprising about 425 acres including two islands in river segment only by about 20 feet of water. Coal and sand, sandstone, outcropping on river bank, at \$12.50 per acre, easy terms. Apply to Mr. Arthur Bloomer, 115 Jasper W. 08-6.
